vacation rentals
Meyer
MeyerRE.com

Welcome to our beautiful beaches.

We know you had a choice for your vacation and we sincerely appreciate you choosing Meyer Vacation Rentals and the Alabama/Florida Gulf Coast. We hope your visit provides all the wonderful experiences you anticipate and much more.

We would like for you to know that each vacation rental property is individually owned and Meyer Vacation Rentals has contracted to manage this property. During your visit, we may need to enter the premises for the purpose of inspection, repair, management or showing to prospective buyer (if applicable), however you do not have to be present. This includes but is not limited to delivery of supplies and replacement of air conditioning filters.

As always, we value your feedback and are available 24 hours per day at 800-775-8945 to assist you in any way necessary.

Thank you.

Perdido Key State Recreation Area
Highway 292 between Orange Beach and Perdido Key
Wide white-sand beaches, rolling dunes, picnic shelters. Entry fee.

BEACH SAFETY

Always wear sunscreen. Pay special attention to the face, nose, ears and shoulders. Protect your lips, too. Reapply sunscreen often, especially after swimming, and remember children are especially vulnerable to sunburn.

Drink water to keep your body cool. Alcohol or caffeine can cause dehydration.

Wear sunglasses to protect your eyes from UV damage.

Watch for signs of heatstroke which include hot, red and dry skin; changes in consciousness; rapid, weak pulse; and rapid, shallow breathing. Aid victim with cooling by placing cold packs or wet towels on wrists, ankles, armpits and neck. Call 911.

Relieve sunburn pain by soaking in a cool bath and/or applying cold compresses several times a day. Do not use petroleum jelly or oil-based lotions. Acetaminophen or ibuprofen may help relieve pain and swelling.

Treat jellyfish stings by washing the area with saltwater. Apply rubbing alcohol or vinegar. Call 911 if victim experiences difficulty breathing or swallowing.

Never swim alone. Stay inside designated swimming areas and in the sight of lifeguards. Don't swim near piers, pilings and platforms.

Avoid areas between sandbars or near steep dropoffs. Don't swim in areas used by fishermen, where schools of fish are found, or where seabirds are diving. Use caution in murky water. Avoid swimming at dusk, night or twilight. Avoid wearing shiny clothing and jewelry.

Stay informed of water conditions. Always take note of flags flying on public beach areas. For tide information, call 251-968-TIDE (in GS), 251-981-SURF (in OB), and 850-932-SURF (in PK). Below are the flag meanings.

GREEN FLAG

Conditions are calm.

YELLOW FLAG

There is moderate surf and/or currents.

RED FLAG

High surf and/or strong currents—no swimming (Swimming while a red flag flies is ILLEGAL).

DOUBLE RED FLAGS

The surf and currents are so rough that the water is closed to the public.

PURPLE FLAG

Dangerous marine life present (sharks, jellyfish, Portuguese man-of-war, skates, etc.).

Reminders: Fireworks are strictly prohibited by law at all properties. Firearms are prohibited at all Meyer facilities and Meyer-managed rental properties. Outdoor grills on decks, porches, balconies and underneath houses are prohibited. Grills are sometimes provided in common areas at condominiums; however, we cannot guarantee their working order or availability.

If you are caught in a rip current, stay calm. Rather than swimming directly toward the shore, swim parallel to the beach. Once free of the current, swim at an angle, away from the current, toward the shore.

PRESERVATION

Sea Turtles Three species of nesting sea turtles call our area home. These endangered and threatened species are protected by law. Please do not disturb the turtles or their nests. To keep the hatchlings' path clear, remove all beach equipment and trash. Turn off outside lights and shield indoor lights from shining onto the beach at night. Avoid using flashlights or flash photography.

Sea Oats This vital vegetation anchors and stabilizes sand dunes and prevents dune erosion. Wild sea oats is a protected species; picking sea oats or harvesting the seeds is against the law.

Sand Dunes Sand dunes play a major role in protecting our white, sandy beaches. The daily rise and fall of the tides and windy weather continually change the profile of the beaches, and sand dunes help in naturally replenishing them. The sand dunes are also habitats for sea turtle eggs, sand crabs, and other marine creatures. Please use dune walks, boardwalks and other designated paths to the water, and never walk through the dune system.

These items are not allowed on our beaches:

- Glass containers
- Fires
- Fireworks
- Tents/structures larger than 10'X 10'
- Metal shovels/excessive digging
- Pets (not including Fort Morgan)
- Firearms
- Overnight camping
- Litter
- Vehicles

**LEAVE ONLY
FOOTPRINTS**

Any structures, equipment or personal property left on the beach ONE HOUR AFTER SUNSET will be removed and disposed of by beach patrol (except for permitted beach services). This policy is regulated by local, state or federal laws or ordinances.

Enjoying our coastline responsibly ensures a more positive experience for you and helps ensure the safety of all our visitors and the sustainability of our natural resources. Each of us is responsible for protecting and preserving our beaches, and local municipalities strive to provide a safe, clean, family-friendly environment for everyone visiting.
